Fiber Optic Distribution Frame

Model: CoreTECH Optical Distribution Frame: CT-ODF-600, CT-ODF-504, CT-ODF-300

CT-ODF-600

CoreTECH Fiber Optic Distribution Frame, used for FTTH (Fiber To the Home) Networks, Local Area Networks, Telecommunication Networks, Data Communication Networks, etc.

Features

- Designed based on Telecommunications industrial standard.
- Large Capacity.
- High-Density.
- Modular Structure, to manage every single modular on or off rack.
- 12 core per Fiber Module Splice Tray.
- Max 600 core (50 sets Fiber Module Splice Tray).
- Suitable for installation type of SC, ST, FC etc.
- Lockable for front and back doors.

Specification

Model	Dimension (mm)	Capacity (Core)	Fiber Module Splice Tray (Max :50 tray)
CT-ODF-600	2200mm(H)x600mm(W)x300mm(D)	600	50
CT-ODF-300	2200mm(H)x600mm(W)x300mm(D)	300	25
CT-ODF-***	2200mm(H)x600mm(W)x300mm(D)	*	*

Remark *: Optional.(Max 600 core = 50 sets Fiber Module Splice Tray).
: 12 core per Fiber Module Splice Tray.
