

24port Patch Panel Cat6A (Unloaded)

Model: PP-C6A-CT24-S

Application

The 24-port unloaded patch panel supports the installation of Cat6A shielded keystone jacks and complies with TIA/EIA-568 Cat6A standards, suitable for 10-Gigabit Ethernet applications. It is designed for the interconnection and termination of horizontal cabling between devices, equipment, and centralized points, and fits standard 19" equipment racks and cabinets.

Feature

- Unique exterior design, simple and compact with beautiful appearance
- High quality engineering plastic and steel sheet with high strength
- Ergonomic design, convenient module snap-in installation
- Consistency black surface with any other equipment
- Be compatible with various performance modules
- Solid and easy installation design saves installation and operation costs
- Be compatible with 19-inch equipment racks, cabinets, and wall mount shelf
- All ports are large front-end marked, easier use for operation
- The back ends with a cable manager that effectively guides the cable to the termination point

Application Environment

- Storage Temperature: -10°C ~ 60°C
- Operating Temperature: -40°C ~ 60°C
- Relative Humidity: 10% ~ 90%
